OBJECTIVE

I want to get a job in software engineering where I will face challenges in web and mobile development, competitive programming, and leading projects. My desire is to participate in innovative undertakings and be able to get relevant expertise necessary for attaining long-term objective of establishing a prosperous tech company.

EDUCATION

Adama Science and Technology University

BSc in Computer Science and Engineering

May 2022 - Present

> **CGPA:** 3.81
> **Relevant Coursework:** Advanced Algorithms, Database Systems, Web Development, Mobile Application Development
> **Notable Projects:** Bank Management System, Educational Quiz Platform

Sadam Husen

SOFTWARE ENGINEER

I am an enthusiastic student currently studying Computer Science and Engineering and have an interest in emerging technologies focusing on software development. In my work, I use MERN stack and Java programming languages to build web and mobile applications. I have been a leader in class assignments and participated in code contests, hoping that my future job will involve writing software code that could help me start a decent IT business.

EXPERIENCE

Projects

Bank Management System

Java, MySQL

Role: Project Lead

- **Description:** Led the development of a comprehensive bank management system. Designed and implemented features for account management, transaction handling, and secure data storage. Successfully integrated MySQL to manage large datasets and ensure data integrity.
- **Outcome:** Enhanced the system's efficiency by 30% compared to traditional methods.

Educational Quiz Platform

Java, Servlet, HTML, CSS, JavaScript, MySQL

Mini Apps with Flutter, MERN Stack E-commerce Website

Skills

- **Programming Languages:** Java, Python, C++, JavaScript,
- **Web Development:** HTML, CSS, Node.js, React.js, MERN stack
- **Mobile Development:** Flutter (in-progress)
- **Database Management:** MySQL, MongoDB
- **Competitive Programming:** Leetcode (30-day streak winner, 50-days Badge), Codeforces
- **Frameworks and Libraries:** Express.js, MongoDB, Flutter
